TEACHING EXPERIENCE

Adjunct Professor

February 2011 to June 2011

Cincinnati State University, Cincinnati, Ohio

- PHY 2270 Introduction to Physics

This is a remedial course for students with a limited exposure to physics and lab techniques. Half the course is an introduction to the fundamentals of mechanics, while the rest of the time is devoted to lab procedures, measurement methods, and data collection and analysis. Course structure was developed by the college.

Adjunct Professor

September 2010 to June 2011

Miami University, Hamilton, Ohio

- PHY 101 Physics and Society, PHY 111 Astronomy & Space Physics

Physics and Society is an introduction to conceptual physics with a very strong emphasis on the interaction of science and society. Astronomy is an overview space exploration, astrophysics, cosmology and contemporary research in the field. I developed all the content and structure of the courses.

Teaching Assistant

October 2008 to June 2010

University of Cincinnati, Cincinnati, Ohio

- PHY 111 College Physics Lab, PHY 211/212 General Physics Lab

These courses are 3 hour labs each week that accompany College Physics and General Physics. Course content was developed by the department.
