program- ming

♥ VB.NET
SQL, C++, IDL, IRAF
Mathematica & L^AT_EX

talents

Radiative Transfer
Fourier Analysis
Spectrophotometry
Infrared Spectroscopy
& Astrophysics

maths

Statistics, Linear Algebra
Risk Analysis & Methods
Computational Modelling
Nonlinear Root-finding
Numerical Interpolation
Numerical Methods for
Integration & Differentiation

education

- 2005--2010 **Master** of Science in Physics University of Cincinnati
Massive Stellar Clusters in the Disk of the Milky Way Galaxy
A look into what the properties of star clusters in the inner regions of the galaxy can tell us about the Milky Way's structure and its future.
- 2000--2004 **Bachelor** of Fine Arts Ohio University
Specialization in Printing

experience

- 2012--2013 **PPG INDUSTRIES** Cleveland, Ohio
Color Scientist
Developed software for spectroscopic profile analysis on color match samples, radiative transfer models on simple paint mixtures to determine formulation methods, and risk analysis on new technology and models that we deliver to our customers.
Detailed achievements:
 - 40% marked improvement on color matching software algorithm
 - Developed cross-instrument correlation software for risk analysis project
 - Debugged optimization function for numerical solution to the radiative transfer equation
- 2010--2011 **MIAMI UNIVERSITY/CINCINNATI STATE** Hamilton, Ohio / Cincinnati, Ohio
Adjunct Professor
Developed curricula in introductory physics & astronomy courses, and designed a technical physics curriculum for remedial students

awards

- 2008-2010 **UGS Scholarship** The Graduate School, University of Cincinnati
University-funded scholarship awarded on academic merit
- 2010 **Mary J Hanna Fellowship** School of Arts & Sciences, University of Cincinnati
Awarded to especially promising graduate students in the sciences and engineering
- 2005-2007 **Dean's List** School of Arts & Sciences, University of Cincinnati
Awarded to students of exceptional academic merit
- 2003 **Provost's Undergraduate Research Grant** Honors College, Ohio University
University-funded grant awarded to support research by undergraduate students
- 2002-2004 **Dean's List** School of Fine Arts, Ohio University
Awarded to students of exceptional academic merit

interests

Professional: Bayesian Artificial Intelligence, Data Analysis, Mathematical Modelling, Software Design
Personal: Cooking, Drawing, Hiking, Journalism, Music
