Proficient with

.NET Framework:
VB, ASP, SQL, LINQ
HTML5, IRAF
Mathematica & $\text{\LaTeX}$

Experience with

C++, C#, CSS, FORTRAN
IDL, JavaScript, JMP
LabVIEW, MATLAB
Python, Regex

Math

Statistics, Linear Algebra
Risk Analysis & Methods
Computational Modelling
Nonlinear Root-finding
Numerical Interpolation
Numerical Methods for
Integration & Differentiation

Physics

Radiative Transfer
Fourier Analysis
Spectrophotometry
Infrared Spectroscopy
& Astrophysics

Experience

- 2014–Present **AmTrust Financial Services** Cleveland, Ohio
Software Engineer
Put description here.
Detailed achievements:
 - Developed web forms for insurance industry using ISO standards
 - Implemented multi-tier MVC components, Web APIs, and UIs using VB, ASP, Javascript, & HTML5
 - Unit testing using C#
 - Database maintenance using SQL
- 2012–2013 **PPG INDUSTRIES** Cleveland, Ohio
Color Scientist
Developed software for spectroscopic profile analysis on color match samples, radiative transfer models on simple paint mixtures to determine formulation methods, and risk analysis on new technology and models that we deliver to our customers.
Detailed achievements:
 - 40% marked improvement on color matching software algorithm using numerical integration methods in VB.NET
 - Developed cross-instrument correlation software for risk analysis project using VB.NET/JMP
 - Debugged optimization function for numerical solution to the radiative transfer equation using VB/FORTRAN
 - Wrote DLL wrapper for on-loan spectroscopic instrument using Visual C++/VB.NET
- 2011 **CINCINNATI STATE** Cincinnati, Ohio
Adjunct Professor
Designed a technical physics curriculum for remedial students
- 2010–2011 **MIAMI UNIVERSITY** Hamilton, Ohio
Adjunct Professor
Developed curricula in introductory physics & astronomy courses

Education

- 2005–2010 **Master** of Science in Physics University of Cincinnati
Massive Stellar Clusters in the Disk of the Milky Way Galaxy
New near-infrared classification spectra candidate members of the galactic cluster [BDS2003]107 and Westerlund 1 with comparative 2MASS photometry; GPA: 3.3
- 2000–2004 **Bachelor** of Fine Arts Ohio University
A Novel Method for Low-Toxic Photo-Etch Printing
Development of new method for photochemical etching, replacing potentially toxic materials with toner & natural wintergreen solvent; Major GPA: 3.6
